**YOU SHOULD BE OFFERING THE KICTeam Line of Technical Cleaning Solutions...**

Technical devices encounter dirt and contaminants from a variety of sources, such as dust and dirt from the environment, oils and fingerprints from skin, and ink and adhesive from media. Without proper maintenance, devices are subject to decreased performance, are more prone to breakdown, and will have a shorter lifetime.

Here are just a few of the KICTeam Cleaning Solutions offered from ARLINGTON...please call for more details.
